The Transparent Accent/ EKKM- Tallin

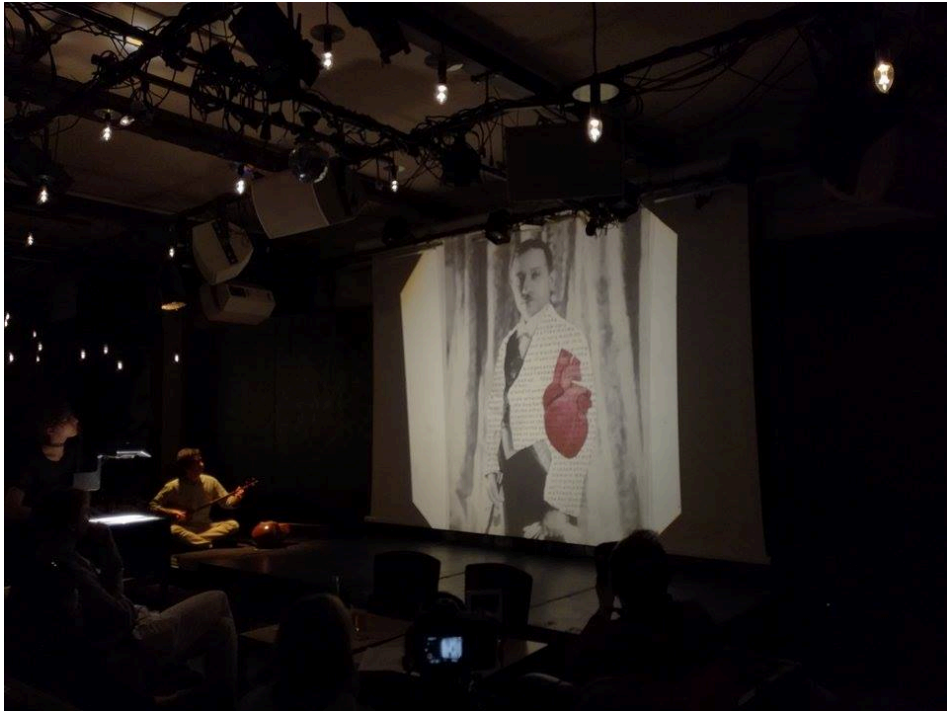

The Transparent Accent is a live collage performance (30 mins) and a metaphorical dialogue between visual and musical rhythms and forms that create fragmented meanings towards identity. The performance will combine and juxtapose various elements, which will emphasize the multilayered complexity and beauty embedded in the exchanges between different cultures. *The Transparent Accent* explores the various forms that identity can take through the inevitable movement of bodies and the consequences of this movement.

The Transparent Accent/ EKKM- Tallin

The Transparent Accent wants to emphasize that there is always a hand that intentionally builds our reality in a certain way.
The question is: What is its intention?
